● ABOUT MYSELF

Full-stack developer focused on building practical web apps with JavaScript/TypeScript. I work mainly with React/Next.js on the front end and Node.js (Express) on the back end, using PostgreSQL/MongoDB when needed. Before moving into development, I managed an e-commerce store for 5 years, which gave me a strong habit of shipping improvements, fixing issues fast, and paying attention to details. Fluent in Turkish, with working English and Romanian.

● SKILLS

Javascript/Typescript | Next.js | Shopify | Vite

Database:
PostgreSQL | MongoDB

DevOps:
Nginx | Docker | pm2 | Git

Typescript ORM:
Prisma | Drizzle

Front-end:
Tailwind CSS | React | CSS

Back-end:
Node.js | Express

● PROJECTS

Image Audit CLI

Node.js CLI tool to scan image folders for over sized files, duplicate names, and visually similar images (pHash), with optional compression and auto-organization using ImageMagick.

Repo: github.com/sezginbozdemir/image-audit-cli

Headless Shopify Storefront

Built a headless e-commerce front-end using Remix and React, integrating Shopify Storefront API for products, cart, and checkout with a performance-focused, fully customizable UI.

Repo: github.com/sezginbozdemir/headless-shopify-remix

Demo: snoya.sezdev.com

Monorepo Boilerplate

Scalable Turborepo setup with a Next.js front-end, Express back-end, and shared packages including Drizzle, Supabase integration, shadcn/ui components, centralized env validation, and reusable utilities for rapid full-stack development.

• WORK EXPERIENCE

2018 - 2023 - BUCHAREST, ROMANIA

ONLINE STORE MANAGER EMR ENGROS

- Managed day-to-day operations of the e-commerce website, ensuring accurate product listings and site updates.
- Created and maintained product catalog: added new products, descriptions, images, pricing, categories, and variants.
- Monitored and updated inventory/stock levels and coordinated availability to prevent overselling.
- Planned, launched, and optimized **Google Ads** campaigns (Search/Shopping/Display).
- Planned, launched, and optimized **Meta Ads** campaigns (Facebook), including audience targeting and retargeting.
- Designed/produced marketing creatives (banners/ad visuals) for online campaigns and promotions.
- Coordinated website promotions, seasonal campaigns and product launches.

2023 - 2025 - BUCHAREST

JUNIOR FULL-STACK DEVELOPER PIXADO

- Converted **Figma designs** into web pages using **React** and **Next.js** with **TypeScript.**
- Built and maintained back-end functionality using **Node.js**(Express).
- Integrated front-end with APIs and handled data flow between client and server.
- Worked with databases (PostgreSQL/MongoDB).
- Used Git for version control.
